OFFENDER OF THE CONSTITUTION

This former President of the United States actually said those words about the US Constitution. With the implementation of the Patriot Act and the Department of Homeland Security, the US Constitution has been horribly breached, preparing the way for the miraculous deceptions of the false prophet that will encourage Congress to radically change the constitution and implement legislation to set up a system of governance called Commuligion, this will result in widespread persecution upon conscientious Christian and will encourage all the nations of the world to do the same (See Revelation 19:20; Revelation 13:11-18).

We are nearing the end of the world and corrupt politicians, influenced by demons and conspirational interests have pushed us to the brink of disasters. The only document, the US Constitution, that has brought protection to the nations of the world by its influence, is about to disappear. Soon the final events will come and then Christ will appear to take His saints with Him. Please be sure that you are ready for these events. Amen
